

Hi Sarah,

47 percent of the Class of 2016 graduated with a C or better in all A-G courses.

In late February, 50 percent of the Class of 2017 had a C or better in all A-G courses. I'm hoping to get you an updated figure, but don't know if that will happen.

We do not compile/track college acceptances. We get enrollment data from the National Student Clearinghouse. I haven't seen this year's information yet. (We didn't get the 2015 info until last May, so it appears there is a time lag.)
